

What criteria do you use to match mentors with mentees?

Last Modified on 10/24/2022 1:31 pm EDT

We ask each participant to fill out a matching survey which asks questions such as:

- Your current job situation
- Areas of interest or growth
- Preliminary goals
- Industry (and possible industries that mentees may want to explore)
- Functional Area
- Level in their career (Manager, Director, etc.)
- Location (in case they wish to meet in-person one day or expand their network in a specific geographic location)
- Meeting time/time zone to ensure mentoring sessions are convenient
- And we include a field in case there is anything specific that you are looking for or that is important to you that the matching committee should take into consideration

A lot of time and thought goes into matching, so the more information you can give during your matching survey the better!
